PROFESSIONAL SUMMARY

Performance marketing manager with nearly five years owning paid acquisition for a consumer food-service brand: about Rp4 billion in billed Google and Meta spend, over 19,000 recorded leads, 17% lead-to-order and Rp7.5 billion in collected revenue. Also builds the stack underneath: tracking, landing pages, CRM and WhatsApp automation, and the dashboards the team runs on.

SKILLS

Paid acquisition · Google Ads (Search, Performance Max, Display) · Meta Ads · TikTok Ads · Lead generation · Audience segmentation · Retargeting · Budget pacing · Creative testing

Measurement & CRO · GA4 · Google Tag Manager · Conversion tracking · Looker Studio · A/B testing · Landing page optimisation · CPL / CPA / ROAS · Funnel analysis · Search Console · Hotjar · Semrush · SEO

Automation & data · n8n · WhatsApp Business API · CRM workflows · PostgreSQL · SQL (working) · TypeScript · Python (working) · WordPress · Linux / Nginx · AI coding agents (Claude Code)

PROFESSIONAL EXPERIENCE

PT Dapoer Nusantara Indonesia (Bani Aqiqah) January 2022 – Present
Bekasi, Indonesia · Food & Beverage / consumer services · Hybrid

Marketing Manager June 2022 – Present

- Own paid acquisition across Google and Meta: about Rp4 billion in billed media since 2022, producing over 19,000 recorded leads that converted 17% to order and about 10% to paying customer.
- Generated Rp7.5 billion in collected revenue, measured on fully paid invoices; platform-reported conversions run about 20x higher than actual paying customers.
- Read channel roles from recorded leads rather than platform data: 23% of Google clicks became leads against 3% on Meta, so Google carries intent and Meta carries reach.
- Increased unit contribution margin up to 3x with new product lines and overseas storefronts (Singapore, international); launched five product lines in three months with a three-person team, working with the CEO, operations and finance.

Digital Marketing Executive January 2022 – June 2022

- Built the digital marketing function from zero: Google and Meta ad accounts, the WordPress site and landing pages, GA4 tracking, A/B testing and daily management reporting. Promoted to Marketing Manager within six months.

Founder & Performance Marketer 2024 – Present
Tomato Roll · Independent performance marketing practice, Indonesia

- Built Google and Meta ad accounts from scratch for client brands including Kerenyes Fried Chicken and Aqiqah Emak: account structure, pixel and conversion tracking, campaigns, landing pages and reporting.

TECHNICAL & AUTOMATION PROJECTS

Self-Hosted Marketing & Operations Stack BUILT AND OPERATED SOLO 2025 – Present

- Replaced Bani Aqiqah's spreadsheet and no-code toolchain with a self-hosted stack (TypeScript app, PostgreSQL, n8n, WhatsApp Business API) on a ~Rp100k/month server, automating lead capture, sales-rep assignment and customer messaging.
- Includes the real-time sales and marketing dashboards the team runs on daily; built with AI coding agents (Claude Code), with backups and a disaster-recovery runbook.

EDUCATION

Bachelor of Economics, Management 2015 – 2020
Universitas Indonesia · GPA 3.11 / 4.00

- Thesis published in the ACM Digital Library (ICE3G 2020). Finalist, 2018 Diponegoro National Capital Market Competition.

ADDITIONAL

- Earlier: Sales Trainee, Ruangguru (2021); Operations Intern, PT Surveyor Indonesia (2020).
- Training: PMMB certified internship, Forum Human Capital Indonesia (grade A); Data Science Bootcamp, Dibimbing.id (2021).
- Languages: Indonesian (native), English (professional working proficiency, C2).
